*" An ounce of practice is worth than tons of preaching – SRI. MAHATMA GANDHI JI "*

*" If you are not part of the solution, you are part of the precipitate – SIR. HENRY J. TILLMAN "*

Greetings !!! SINCE the turn of the century, Bio-Technology, Life Sciences and Information-Technology based industry, research and education have been making rapid strides both by expansion in conventional areas as well as by entering into new and emerging fields. This has resulted in an increase in the number of research, education and training centres as well as industrial units. To reach the pinnacle in these areas, industrially and academically, there is a strong need to interlink between academia, industry and society. LIFE is the basics of all Sciences. Science is the base for Development. Development is the foundation for better Society and Living.

With this perspective Life Science Foundation India (LSFI) was conceptualized on 26<sup>th</sup> January 2006, the Republic day. LSFI was registered with Govt. Authority on 19<sup>th</sup> May 2006 as one of the Scientific, Educational, Charitable, Not-for-Profit, Non-Government, National Foundation under Indian Trust Act, 1882 having its operation all over nation. LSFI has filed applications with Income Tax Department and has been awaiting approval u/s 12A and 80G of Income Tax Act 1961. LSFI has planned to get approval as Scientific and Industrial Research Organization (SIRO) with Ministry of Science & Technology, Govt. of India.

The major objective of LSFI is to mobilize Academicians, Scientists, Industry, Policy makers, NGOs, Institutes, Universities, and the public, private entrepreneurs to promote the concepts and practices of emerging disciplines such as Life Science and Technology, etc. LSFI is operates on donations, funding, grants from the private and public and self-income generative programs. LSFI works in the domains of Education, Research & Development, Self-Employment, and Entrepreneurship development, Agriculture, Healthcare, Food processing etc. LSFI has a mission to promote emerging fields of Sciences & Technology by closer linking between the academia, researchers, policy makers, industry and developers etc., to help in building up a harmonious society. LSFI has a vision to achieve Social welfare, and overall development of the society by reaching Education for All through scholarships, awards, courses etc.; by encouraging innovators, youths, etc., through seed funding and assistance etc. to imbibe Entrepreneurship skills and to establish new enterprises to achieve Employment for All.
